Important Health Warning: Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause "photosensitive epileptic seizures" while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **Immediately stop playing and consult a doctor if you experience any of these symptoms.** Parents, watch for or ask children about these symptoms—children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

Each building also give you an SPS (squirrels per second) bonus. These will set you right on your way to becoming a squirrel billionaire. some notable buildings to buy are :

1. Nuts, a squirrel gathering staple, the most simple and effective way to get squirrels.
2. Montreal, with a population of 1.78 million (2017), they have some squirrels to be aquired.
3. West texas, with more people than montreal (probably) they have more squirrels than montreal (probably).
4. East side mario's, a popular restaurant, that i think i saw a squirrel near once.
5. Danielle radcliffe (elijah woods), a celebrity or two to back up your cause would totally help get more squirrels.
6. Nuclear bombs, obviously these will help flush the squirrels out of hard to reach locations like trees.

Live the life of a human in the year 2055. Every decision you make shapes your legacy as a squirrel entrepreneur. The world ended in January 2025, when the President of the United States gave every person in the United States a million dollars for free, which crashed the global economy. Once the fires died down, he was removed from staff, and the rest of the United States government decided to instate squirrels as the national currency. Every other country in the world followed suit shortly thereafter, and soon the world was being scoured for squirrels. As a hidden amendment to the squirrel currency bill, a highly supported (by campaign donors) clause that legalized all crime if you have over a billion squirrels was also passed. Your lifelong dream has been to view a moose from an airplane in Alaska, which is illegal. However, if you were to somehow acquire 1 billion squirrels, you could do that, and any other crime you wanted to.
